

Patient Nondiscrimination Policy

Adolescent & Young Adult Advocates' philosophy is to live in integrity, lead by example, and create a strong sense of self and community. We are committed to helping the members of our Community restore balance and integrity in their family, academic and social situations; strengthening character helps our clients feel healthier and encourages a change in behavior.

Adolescent & Young Adult Advocates prohibits and will not tolerate any discrimination. All services are provided in a non-discriminatory manner, without regard to race, sex, color, national origin, ancestry, religious creed, disability and age. Reasonable accommodations will be made for clients with a disability and all facilities are ADA accessible.

Any complaints of discrimination can be reported to our Clinical Director and/or Executive Director as outlined in our Patient Grievances and Complaints Policy. Complaints of discrimination can also be filed with the US Department of Health and Human Services' Office of Civil Rights (OCR), the DHS Bureau of Equal Opportunity (BEO) and/or the Pennsylvania Human Relations Commission (PHRC).
